Warren's Nursery

2200 5th Street, Cor. 5th and Allston Way

Berkeley 2, California

Berkeley 2696

The Plants Listed here are a Specialized Group and are grown to satisfy the most Discriminating, at moderate prices. Mail orders are carefully packed. Vigorous and Healthy plants.

ORCHIDS AND THEIR CULTIVATION

Following the keen interest evinced in our personal instruction course, many persons have written asking for more information. We are happy to answer numerous interested persons unable to attend because of distance. The entire series of ten lessons will be conducted by mail, and will be sent to you in the form of a booklet. The collection, growing and merchandising of orchid plants and their flowers, at the nominal cost of \$4.50 for 10 lessons. This course enables both the amateur with no experience and the man with some knowledge of orchids to fulfill his desire to grow great aristocrats around which has been drawn a veil of mystery.

GENERAL INFORMATION

We take every precaution to keep each variety true to name. All plants are grown in the greenhouse under the most favorable conditions. Later claims will not be considered. When loss occurs through our fault, we will take pleasure in correcting same, but will not be responsible for damage in transit, claims for which should be made at once to the Carrier.

All sales and prices are on a strictly cash basis. Our prices are the lowest obtainable. All orders must be accompanied by service in every way. All orders made subject to goods being unsold.

All orders amounting to \$2.00 or over, packing free. Orders less than \$2.00, please add 25c for packing. Shipment will be made by Railway Express Agency only, transportation charges included. No C.O.D. shipments; no orders accepted for less than \$1.00.

California customers please include 2 1/2% sales tax required by law.

NOTICE! When ordering by mail we suggest that you list a few substitute varieties in case some ordered are out of stock. OTHERWISE, we will substitute as near variety ordered as possible.

Due to abnormal conditions we must ask our customers to conform to above.

AMARYLLIS HYBRIDS

Tremendous strides have been made in the development and improvement of Amaryllis, in the production of large flowers and faster growing plants. They will bloom several times a

Amaryllis Hybrid

year, bearing blossoms of immense size, model form with a superb color. They are produced in delicate pink, scarlet, maroons and crimson.

Due to our large stock, we are enabled to make our prices especially attractive.

Large flowering bulbs 40c each, 10 for \$2.50. Giant flowering bulbs 50c each, 10 for \$4.50.

Plants in blossom 75c to \$1.00 each.

For shipping instructions see "General Information."

IVY GERANIUMS

For window boxes, banks, walls, no other plant can equal Ivy Geraniums. Will grow equally well in full sun or partial shade.

- | | |
|-----------------|-----------------------|
| White | Red |
| Light Pink | Scarlet |
| Medium Pink | Lilac |
| Deep Pink | Purple |
| Deep Red-Richly | Echamfrase-Variegated |
| Marbled Orchid | Pink and White |
- MME. SALLEROL-Green and white variegated foliaged edging geranium. Excellent border plant.

Prices Same as Geraniums

CERANIUMS

There is no other plant that requires less maintenance care, less fertilizer and less water than the Ceranium. There is no other plant that produces so many beautiful flowers in so beautiful colors, ranging in color from the purest white to the deepest purple shades for a longer period of continued bloom than the Geranium. In San Francisco we know of one Ceranium that has been in bloom for over 20 years, and for upwards of twenty years. With one pruning a year to remove the old dead wood and hard growths, it has always given prolifically of its great scarlet heads of flowers, never being affected by the heavy frosts which periodically touch the vicinity.

Prices-Well Rooted, Flowering Size, 25c Each.

Shipping Instructions-See General Information.

WYONA. Bright salmon scarlet. Choice. D.

SPECIAL OFFER

6 Fuchsias, Pelargoniums or Geraniums, \$1 plants flowering size, our selection for

FUCHSIAS

Fuchsias love the shade and moisture, thus are suitable for situations such as the north side of buildings, under trees, etc. They grow rapidly and blossom from early spring until late autumn. They may be grown as individual specimens trained as standards, pyramids, suspended in baskets or as a mass of trailing vines. Fuchsias grow with great rapidity and with a minimum of care become beautifully effective additions to any garden. Because they are heavy feeders, we advise a rich soil with

FIBEROUS ROOTED BEGONIAS. Each 25c.
Bertha von Lottengarten, Margarita, Haageana, Multiflora rosea, also trailing variety, D. glaucodonta splendens.

applications of plant food from time to time. If the soil is poor, we suggest spading in and mulching with well-rotted cow manure. They will not stand an outside temperature of less than 20 degrees F.

Prices—Well Rooted, Flowering Size, 25c Each.

Shipping and Substitutions—See General Information.

In addition to Fuchsias below, we have many others too numerous to list. For older types consult our previous list. Following are some of the newer varieties.

PELARGONIUMS

Pelargoniums rank high among our most beautiful spring and summer flowering plants. They offer a rich and varied assortment of colors and combinations. The demand for good Pelargoniums is always increasing and we have kept pace with it, our comprehensive collection including the finest varieties both new and old. They are large flowered and bloom freely. When well grown in pots, they make splendid specimens and if carefully pinched out for proper shaping, they rival azaleas in beauty.

Prices—Well Rooted Flowering Size, 25c Each.

Shipping and Substitutions—See General Information.

In addition to varieties listed below, we have many others too numerous to list.
